PROFESSIONAL SUMMARY

Full-Stack Software Developer and Technical Lead with 5+ years of experience in software development, system implementation, and enterprise application delivery. Currently leading a team of 4 freelance developers at Ezee Workers on two SaaS recruitment platforms (Agent and Partner apps) with built-in CRM and HRMS. Hands-on expertise in TypeScript, Node.js, React, PHP, and Laravel, with PostgreSQL, MongoDB, and MySQL, RabbitMQ and Redis, REST API development, third-party integrations (Respond.io, Ziwo), and AWS infrastructure (EC2, Lightsail, S3, CloudFront). Applies AI-assisted development and LLM integration to adapt quickly to new technology stacks. Seeking senior full-stack developer or technical lead roles.

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript, PHP, Python

Backend Development: Node.js, Laravel, CodeIgniter, Core PHP, REST API Development

Frontend Development: React, Next.js

Mobile Development: Flutter

Databases: PostgreSQL, MongoDB, MySQL, SQL Server

Messaging & Caching: RabbitMQ, Redis

Cloud & DevOps: AWS (EC2, Lightsail, S3, CloudFront), Bastion Server (Secure Remote Access), Server Deployment, Cloudflare (Frontend Deployment), Git

Integrations: REST APIs, Webhooks, Third-Party API Integration, Respond.io, Ziwo

Enterprise Systems: CRM, HRMS, ERP, QMS, SaaS Applications

Architecture & Leadership: Database Design, System Architecture, Code Review, Technical Team Coordination, Requirements Analysis, Production Support

AI Development: LLM API Integration, Prompt Engineering, AI-Assisted Software Development

PROFESSIONAL EXPERIENCE

Ezee Workers Employment Services Center

Senior Software Developer

Mar 2026 – Present | Dubai, UAE

- Lead a team of 4 freelance developers delivering two recruitment platforms built from scratch: a SaaS Agent app and a Partner app.
- Define application architecture, database design, and recruitment and placement workflows across both platforms.
- Built the Agent app with TypeScript, Node.js, and PostgreSQL, and the Partner app with Node.js, TypeScript, React, and MongoDB, using RabbitMQ and Redis in both.
- Develop and coordinate CRM and HRMS functionality for candidate management, customer relationships, staff administration, and recruitment operations.
- Integrate Respond.io, the Ziwo calling application, and company websites using APIs and webhooks.
- Manage AWS infrastructure on EC2, Lightsail, S3, and CloudFront, with secure bastion server access and frontend hosting on Cloudflare.
- Coordinate development tasks, review code, and work with stakeholders to translate business requirements into technical solutions.

Direct Axis Technology

Software Developer

Jun 2022 – Feb 2026 | Dubai, UAE

- Developed, enhanced, and maintained ERP, HRMS, QMS, and CRM applications used by multiple client organizations, using Core PHP, Laravel, CodeIgniter, and MySQL.
- Used AWS Lightsail and S3 for application hosting and file storage.
- Implemented client-specific business workflows, reporting modules, and application enhancements.
- Developed APIs supporting the HR mobile application and integrations between enterprise systems.
- Troubleshoot production issues, optimized existing functionality, and delivered fixes based on client requirements.
- Progressed from Software Support Engineer to Software Developer, taking on increasing responsibility for application development.

Software Support Engineer

Jun 2021 – May 2022 | Dubai, UAE

- Installed, configured, and deployed ERP, HRMS, QMS, CRM, and cheque-printing software for clients.
- Provided technical support, user training, and application troubleshooting.
- Worked directly with clients to identify software issues and support successful system implementation.

PROJECTS

Agent App: SaaS Recruitment Platform (Ezee Workers)

- Designed and built from scratch, as team lead, an all-in-one SaaS platform for recruitment agencies.
- Candidate sourcing through a structured screening procedure, with built-in CRM and HRMS for candidate, client, and staff management.
- Integrated communication through Respond.io, Ziwo calling, and website APIs and webhooks.
- Technologies: TypeScript, Node.js, PostgreSQL, RabbitMQ, Redis, AWS (EC2, Lightsail, S3, CloudFront), Cloudflare (frontend deployment).

Partner App: Customer Sourcing & Placement Platform (Ezee Workers)

- All-in-one app where partners find customers to recruit candidates, with built-in CRM, HRMS, and communication tools.
- Placement flows driven by country of origin and destination country.
- Technologies: Node.js, TypeScript, React, MongoDB, RabbitMQ, Redis, AWS (EC2, Lightsail, S3, CloudFront), Cloudflare (frontend deployment).

Axis Pro ERP: ERP Solution (Direct Axis Technology)

- Worked across every module, adding new functionality and modules for clients.
- Built client-specific reports and improved existing functionality for better usability.
- Diagnosed and fixed client-reported issues.

Axis HRMS: Human Resource Management Solution (Direct Axis Technology)

- Worked across every module, including Reward & Deduction, Payroll, and Shift management.
- Built the API powering the HR mobile app.
- Created client-specific reports and resolved client-reported issues.

Axis QMS: Queue Management Solution (Direct Axis Technology)

- Worked across every module and served as the single point of contact for all QMS clients.
- Designed workflows according to each client's requirements.
- Customized the system for clinics and government transaction centers and built client reports.

SmartPRO: Document Management System (Direct Axis Technology)

- Served as Project Lead for a small team, building the system from scratch and owning workflow design and new features.
- Integrated the system with AxisPro ERP, renewal services, and other sites, and implemented AI-driven features.

EDUCATION

Bachelor of Computer Applications, IBVE
